

FRED DOUGLAS
SOCIETY

Uniting Health, Heart and Home

June 2, 2020

Dear Fred Douglas Resident Families and Loved Ones;

Fred Douglas Lodge management has been made aware of an employee who has recently tested positive for COVID-19.

The employee did not provide direct care to residents during their period of communicability and was wearing appropriate PPE while in the facility. Based on contract tracing and the vaccination status of our residents, there is no risk to residents.

At this time, an outbreak has not been declared and there are no changes to visiting guidelines.

All residents continue to be monitored twice daily for signs & symptoms of COVID. Employee screening and PPE protocols remain in place.

We remind all designated visitors to strictly adhere to PPE guidelines while visiting and to provide honest answers to the screeners when entering Fred Douglas Lodge.

Please ensure you limit your movements within the facility by going directly to and from your loved one's room and not access other areas of the facility. Please also remember that at this time consuming food and beverages is not permitted by visitors.

Please call or email me if you have any questions or concerns. You can reach me at 204-586-8541 x140 or rgarofalo@fdl.mb.ca.

Sincerely,

Roslyn Garofalo
CEO
